Job Description

We are looking for **enthusiastic and motivated Software Developers** to join our product development team.

This role offers an excellent opportunity for **freshers** to work on real-time projects and grow their **full-stack development skills**.

Key Responsibilities

- Develop and maintain web applications using the **MERN stack** (MongoDB, Express.js, React.js, Node.js)
 - Build and integrate **RESTful APIs**
 - Participate in the **full software development lifecycle**: requirements gathering, coding, testing, deployment, and support
 - Optimize application performance and scalability
 - Debug and resolve technical issues efficiently
 - Collaborate with **UI/UX designers** to enhance user experience
 - Work in an **agile environment** with product managers and team members
 - Write **clean, efficient, and well-documented code**
 - Stay updated with the latest technologies and trends
-

Soft Skills & Attributes

- Strong problem-solving and analytical skills
- Excellent communication and interpersonal abilities
- A proactive approach and willingness to learn
- Ability to work both independently and in a team setting

What We Offer

- Hands-on experience with **real-world projects**
- Exposure to **modern technologies and frameworks**
- **Mentorship** from experienced developers
- A **dynamic, innovation-driven work culture**
- Opportunities for **career growth and continuous learning**

 Interested candidates can apply now and be part of Flikt Technology Web Solution's journey of innovation!
